

REMARKS _____

On 1 March 1955, the following air activity was observed over Vienna. There was a 0/10 overcast, northeasterly wind of 8 km/h and good visibility for 4 km. Between 0700 and 1200, MIG-15s flying in the following formations at altitudes of about 2,500 meters were seen:

25X1

Distances of two aircraft lengths and two wing spans were maintained. The aircraft approached from northwest and headed toward northeast. Between 2000 and 2400, there was air activity by one jet aircraft, probably a MiG-15. From the noise heard it was inferred that the aircraft also flew from northwest to northeast.
